<ul style="list-style-type: none">When exporting data and using the Derived from Columns and choosing 'MOE Year Level', 'MOE Year Level' is now correct.	14.7.13

Version 14.6

Classroom Manager

CM	
<ul style="list-style-type: none">Exporting to Excel from a GO.dmt–The length of the exported column title has been extended to a possible 120 characters	
CMAAdmin	
<ul style="list-style-type: none">The NZQA submission process now excludes external students from the submission fileThe NZQA submission process will no-longer require a context for any standardsNZQA Printing – for the 'Students and their Standards' report, the filter has been extended to include all the criteria available through the full filter selected. Some cosmetic changes have been made to the report to improve clarityNZQA Printing – 'Markbook Analysis by Teacher' and 'Gender-Ethnicity-Level Analysis' reports now use the MoE 6 EthnicitiesAchievement2013-17 (ART) Export has been updated to comply with version 2 of the MoE's specificationNZQA Student Standards Screen – a search has been added to the standards grid in the Utilities Tray	

Absences

- Attendance, Absence and Truancy report for Partitioned schools– the correct calendar is now being referenced for both partitions

Student Manager

- A data-type conversion bug has been fixed in SM batches sent to FM

Version 14.5

ClassRoom Manager

CM

- PAT stanine What-if - The message when selecting a previous stanine for a test which is not valid (e.g. a year 4 student has a year 4 stanine but a year 3 punctuation and grammar test was selected) has been clarified
- NCEA historical data document now shows 2013 information for year 13 leavers

CMAdmin

- The overflow error occurring in Other Utilities when trying to run PDF Setup has been corrected
- Achievement 2013-17 Program. It is now possible to create an export file containing the data required by the MoE for students who are part of this program. This file can then be uploaded via the Ministry's portal. The new "Achievement 2013-17" button is on the main menu

Staff Manager

- Teacher 'Religion' is now showing in Edit members > Other details

Student Manager

- The Overflow error occurring in Utilities > Internet domain allocation when trying to run the induct file has been corrected

Financial

- Invoices for a family, when printed and emailed, were displaying differently and this has been corrected

Version 14.4

ClassRoom Manager

CM

- A check on inactive UE Literacy values for the inactive versions of standards 90720, 90726, 91098, 91099 has been included
- The pre-configured MUSAC Assessments and Profile documents have been updated to include the new PAT Punctuation and Grammar test
- The delayed refresh of changes made on documents (in the multi-option report) has been corrected and will now occur immediately
- When selecting 'MELAA' or 'Other' as an Ethnicity filter for graphs the correct Ethnicity is saved
- PAT stanine What-if:
 - You can now test a student's assessment score against the previous or next year, to see how they would perform in the band above or below the reference year. To use this feature, import the Stanine What-If columns from CMAdmin> Import supplied components > Install Musac Standard columns
 - Once you have imported the columns, add them to your document using the document editor in Classroom Manager

CM Admin

- CM - NZQA Printing –Markbook Analyses by Teacher –The limit of 15 teacher-option line combinations has been extended to 30
- The School-Links myData Online menu button has been removed as this School-links project is no longer running
- Import Candidate from Other Providers – updated to accommodate small changes in files being imported

- Student Standards Screen
 - When a student who has been globally withdrawn for the current year, has been selected via alt-s, the checkboxes in the W column are now correctly checked

Enrol/LMS

- The Enrol Leaver Upload now supports leaving reason code “J” (eligibility expired)

OneScreen

- Changes have been made for some standards which can count for both UE Numeracy and UE Reading/Writing

Student Manager

- The Enrol Leaver Upload now supports the new leaving code “J” (eligibility expired)

Version 14.3

ClassRoom Manager

CM

- GloSS 2nd Edition and JAM 2nd Edition have been added
- The new PAT assessment - Punctuation and Grammar has been added
- The NCEA UE Literacy and Numeracy ‘Specials’ for a Word processor object have been updated

CM Admin

- It’s now possible to import NCEA Candidate Results from other providers. A file of results (previously uploaded by another provider), for one or more students who have transferred to your school, can be downloaded from the NZQA website. These results can now be imported into your school’s database
- There is now an option to include Emergency Grades for external standards using the normal submission process
- The e-asTTle upload file now includes the current year level of the student (rather than the funding year level)
- Student Standards Screen
 - When printing the list of standards for just one student, the formatting error that at times caused the first standard at the top of the page to appear as a blank line has been corrected
 - In NZQA Utilities > Student Standards, there is now an additional checkbox “No NZQA Enrolment in 2014” that will remove a student’s NZQA enrolment via the submission process, where an enrolment has been recreated in error
 - the layering of the list of students in families accessed from the Financial Assistance tab has been corrected
- In Standards Configuration, the Provider List can now contain more than 120 Providers
- School-links Export – the final comma from the end of each record in the export file has been removed, as requested by School-links
- The latest version of the NCEA standards and their mapped codes has been included

Student Manager

- The list of schools has been updated
- After editing a Financial Document, the erroneous message indicating that the first document on the list is missing, has now been removed
- Pastoral – a bug causing an error in the printing of pastoral lists has been fixed

Staff Manager

- You’re now able to edit basic staff details in grid mode

OneScreen

- Absence data on the Personal tab can no longer show more than 2 half-days in a single day

Version 14.2

ClassRoom Manager

CM

- CM Documents – the NCEA Reporting (Format 6) object has been updated. The NCEA UE Literacy and Numeracy 'Specials' for a Word Processor object has not yet been updated

CM Admin

UE Literacy and Numeracy

The following changes have been updated to reflect NZQA's requirements in 2014:

- The table on the right of the Student's Standards page has been updated to reflect the student's progress towards meeting the 2014 requirements for Literacy and Numeracy (Level 1 and UE)
- In NZQA Printing Utilities, the NCEA Credit Summary and the Extended Student Summary have both been updated
- The March 2014 NZQA Standards file installs with this version. There is no need to download it separately from our website. Due to changes in the files received from NZQA, this version of the Classic suite is required to import and update standards for 2014. Please ensure that your school's `accredsnnn.txt` file has been placed in the \CM folder and then import/update both Units standards and Achievement standards in the usual way
- A refinement has been made to the date check when determining the year level of Leavers for the Nag2a Report on OTJs
- asTTle and NZCER export – if duplicate Horizontal or Vertical Group names are found, the name of the duplicate will now be included in the message. The group of students selected via the filter will be shown on the screen
- asTTle and NZCER Export – the bug causing error 3464 when creating the export has been fixed

OneScreen

- The Literacy and Numeracy table on the NCEA Summary tab has been updated

Absences

- Partitioned Schools – Unmarked rolls for one partition can now be marked on a day when only the other partition is open

Student Manager

Ministry Roll Returns - adjustment

- There was an issue with Foreign Fee Paying students who are boarders; and who have enrolled at the school after the Effective Enrolment Scheme date. Zoning Status for FF students is defaulted automatically by the program to NAPP as required by MoE. However this gave an error 635 since the boarder did not have Zoning Status INZN. MoE have confirmed that these students should be defaulted to NAPP, so Error 635 has been adjusted accordingly

Staff Manager

- Responsibilities have been expanded to include a tab for years 2014 - 2020

Version 14.1

Absences

- Primary school calendars will now accept Saturday or Sunday as an open day

ClassRoom Manager

CM

- The preconfigured NZQA Tracking profile documents (as part of MUSAC's out-of-the-box solution) have been updated for 2014

CMAdmin

- Leavers can now be excluded when exporting identity data
- IDE and PACT extract update to PACT-SMS integration version 1.71

Staff Manager

- The free text field has been replaced with a drop down on the personal page for the teacher's class, avoiding data entry errors

Student Manager

Ministry Roll Returns - summary of changes from 2013

- NSN are mandatory in all roll returns
- Tables M7 and J11 Secondary Tertiary programmes - columns added to collect student numbers by funding year level
- Changes to Secondary Tertiary Programmes code list including how STP codes affect student count - Tables M3, M4, J3, J7, E3, E4, S3, S4. Specifically, where STP = 99, do not count these students in the STP columns
- Subject codes will be NAPP in the .moe file for students at hospital school. These will not be included in Table J10
- TPU students: TPAD students renamed Teen Parent Other Adult Students, and are counted on the TPU form only; TPRAE students renamed Teen Parent Enrolled Continuing Adult Students
- Change to zoning: INZN students remain INZN for the time of their enrolment; where there is a zoning scheme, boarders are always INZN; all TPU students are NAPP; STP students are not counted in the Zoning Table (M6)
- Exchange schemes list: Added new Exchange Programme Organisation (EPO), and several EPOs removed
- New leave reason: "Eligibility Expired", Code "J", with no attached conditions
- Change of country name: "Palestine, State of" replaces "Palestine Territory, Occupied"
- Partnership schools: Like private schools, partnership schools starting in 2014 are not required to provide June and September roll returns
